Comment
Incomp year; w/avg

1. Separate data & statistics for Llandudno are not maintained by Hout Bay Neighborhood Watch (HBNW) or SAPS. Therefore this graph was created by volunteers assisting the Llandudno Neighborhood Watch (LNW).
2. On 07AUG17 historical data was manually extracted from individual line item summaries in the confidential portion of the HBNW website. Prior to that, this did not exist.
3. Raw data is confidential but is accessible to anyone applying/accepted to become a HBNW member. Data is initially entered via the Link (ex Trumpet) process that is vetted by the Watchcon controllers in real-time for compliance with their original 2011 categories & definitions. However, this system ended on 30APR18. Thereafter, crime events were entered by a LNHW volunteer manually from LlanSecurity Broadcast WhatsApp groups.
4. Other data sources from Insurance & Armed Response companies are either confidential or unhelpful.
5. Grouping of categories into "Violent" vs "Non-Violent" was done by LSEC to summarize all data as well as show a total (for 3 lines only)
6. Important - All data points are for End-of-"AGM" Year values (that is, from 01NOV to 31OCT).
7. Current year with Year-to-Date (YTD) month-end values is forecasted to end-of-"AGM" year using the "FORECAST" function in excel (linear regression) referencing the immediate prior 12-months (Moving Annual Total; MAT). This is the best-way found so-far to fairly show current monthly data on a line graph of comparative "end-of-AGM year" values.
8. Trendline (black) is added using basic linear function in Excel for all data points shown; then extrapolated into next year.
9. To be consistent with prior data for trend analysis; Sandy Bay incidents are excluded from these results. Reports of Sandy Bay events are captured by the HBNW systems.

Date	Days	Break in	House Robbery	Attempted Break-in	Mugging	Theft Out Of Vehicle	Intruders on Premises	Armed Robbery	Malicious Damage to Property	Hijacking	Theft of Vehicle	Theft	Attempted TOOV	Attempted TOV	Malicious damage to property	Total Events	Total non-violent	Total violent
